### **AMERICAN WOODMARK CORPORATION ANNOUNCES FOURTH QUARTER RESULTS**

WINCHESTER, Virginia (May 29, 2018) -- American Woodmark Corporation (NASDAQ: AMWD) (the "Company") today announced results for its fourth fiscal quarter ended April 30, 2018.

**Fiscal Fourth Quarter 2018**

Net sales for the fourth fiscal quarter increased 57% to \$405.9 million compared with the same quarter of the prior fiscal year. The current fourth fiscal quarter results include three months of results from the Company's acquisition of RSI Home Products, Inc. ("RSI"), which closed December 29, 2017. Excluding the impact of the RSI acquisition, net sales for the fourth fiscal quarter increased 3% to \$266.7 million compared with the same quarter of the prior fiscal year. Excluding the impact of the RSI acquisition, the Company experienced growth in both the new construction and dealer channels during the fourth quarter of fiscal year 2018.

Net income was \$19.1 million (\$1.08 per diluted share) for the fourth quarter of the current fiscal year compared with \$17.3 million (\$1.06 per diluted share) in the same quarter of the prior fiscal year. Net income was positively impacted by additional sales volumes and lower incentive costs which were partially offset by acquisition related costs of \$2.7 million, intangible amortization of \$12.3 million and gross margin declines in the core business mainly due to raw material inflation. Adjusted EPS per diluted share was \$1.64 for the fourth quarter of the current fiscal year compared with \$1.13 in the same quarter of the prior fiscal year. Beginning with this earnings release, the Company has revised its definition of Adjusted EPS per diluted share to exclude intangibles amortization charges. Further details are contained below.

Adjusted EBITDA was \$65.3 million or 16.1% of net sales compared to \$34.5 million or 13.3% of net sales for the same quarter of the prior fiscal year. The increase is primarily due to sales growth in the quarter and the inclusion of three months of results for RSI.

"With an Adjusted EBITDA margin of 16.1%, we were very pleased with our performance over the past quarter," said Cary Dunston, Chairman and CEO. "We had solid growth in our dealer and new construction channels while home center channel sales continued to be challenging. Our integration work is proceeding on plan as we remain focused on strategically leveraging our combined businesses to gain share in the market."

### **Fiscal Year 2018**

Net sales for the 2018 fiscal year increased 21% to \$1,250.3 million from the prior fiscal year. Excluding the impact of the RSI acquisition, net sales for the 2018 fiscal year increased 4% to \$1,072.6 million from the prior fiscal year. Excluding the impact of the RSI acquisition, the Company experienced growth in both the new construction and dealer channels during the entire fiscal year.

Net income for the 2018 fiscal year was \$63.1 million (\$3.77 per diluted share) compared with \$71.2 million (\$4.34 per diluted share) for the prior fiscal year. Adjusted EPS per diluted share was \$5.24 for the 2018 fiscal year compared with \$4.45 for the prior fiscal year.

Adjusted EBITDA was \$175.8 million or 14.1% of net sales compared to \$133.7 million or 13.0% of net sales for the prior fiscal year. The year over year increase is primarily due to additional sales growth and the inclusion of four months of results for RSI.

Cash provided by operating activities for the 2018 fiscal year was \$86.8 million. Free cash flow totaled \$36.9 million for the entire fiscal year. Additionally, the Company paid down \$40.0 million of its term loan facility during the fourth fiscal quarter.

#### **About American Woodmark**

American Woodmark Corporation manufactures and distributes kitchen, bath and home organization products for the remodeling and new home construction markets. Its products are sold on a national basis directly to home centers, builders and distributors and through a network of independent dealers. At April 30, 2018, the Company operated eighteen manufacturing facilities in the United States and Mexico and seven primary service centers located throughout the United States.

Accordingly, the Company's future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements. Such factors include, but are not limited to, those described in the Company's filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K. The Company does not undertake to publicly update or revise its forward looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.*

#### **USE OF NON-GAAP FINANCIAL MEASURES**

This press release refers to the following non-GAAP financial measures:

- Beginning with this earnings release, the Company has revised its definition of Adjusted EPS per diluted share to exclude intangibles amortization charges. Further details are contained below. Adjusted EPS per diluted share, which excludes expenses related to the RSI acquisition, the inventory step-up amortization related to the RSI acquisition, the amortization of intangibles and the related tax benefits of these items.
- Adjusted EBITDA, which consists of EBITDA (net income adjusted to exclude interest income and adding back interest expense, income tax provision and depreciation and amortization) adjusted to exclude expenses related to the RSI acquisition, the inventory step-up amortization related to the RSI acquisition, stock compensation expense, and gain/loss of asset disposal.
- Adjusted EBITDA margin, which is Adjusted EBITDA divided by net sales.
- Free cash flow, which is cash flow from continuing operating activities less capital expenditures consisting of cash payments for property, plant and equipment and cash payments for investments in displays.
- Net sales excluding RSI sales, which is net sales minus sales from RSI.

Refer to the “Non-GAAP Financial Measures” section below for a discussion of these non-GAAP measures and their reconciliation to the most directly comparable GAAP measure.

## NON-GAAP FINANCIAL MEASURES

We have reported our financial results in accordance with generally accepted accounting principles (GAAP). In addition, we have discussed our financial results using the non-GAAP measures described below.

A reconciliation of these non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with GAAP are set forth below.

These non-GAAP financial measures should be viewed in addition to, and not as a substitute for, our reported results prepared in accordance with GAAP, and such non-GAAP financial measures should not be construed as being more important than the comparable GAAP measures.

### Adjusted EPS per diluted share

We use Adjusted EPS per diluted share in evaluating the performance of our business and profitability. Management believes that this measure provides useful information to investors by offering additional ways of viewing the Company's results by providing an indication of performance and profitability excluding the impact of unusual and/or non-cash items. We define Adjusted EPS per diluted share as diluted earnings per share excluding the per share impact of (1) expenses related to the RSI acquisition, (2) inventory step-up amortization due to the increase in the fair value of inventory acquired through the RSI acquisition (that was fully expensed in the quarter ended January 31, 2018), (3) the amortization of intangible assets, and (4) the tax benefit of RSI acquisition expenses and the inventory step-up and intangible amortization. The amortization of intangible assets is driven by the RSI acquisition and will recur in future periods. We began excluding amortization of intangible assets from our definition of Adjusted EPS per diluted share beginning with this earnings release as management determined that such an exclusion would better help it evaluate the performance of our business and profitability and we also received feedback from some of our investors regarding the same.

### Adjusted EBITDA and Adjusted EBITDA margin

We use Adjusted EBITDA and Adjusted EBITDA margin in evaluating the performance of our business, and we use each in the preparation of our annual operating budgets and as indicators of business performance and profitability. We believe Adjusted EBITDA and Adjusted EBITDA margin allow us to readily view operating trends, perform analytical comparisons and identify strategies to improve operating performance.

We define Adjusted EBITDA as net income adjusted to exclude (1) income tax expense, (2) interest (income) expense, net, (3) depreciation and amortization expense, (4) amortization of customer lists and trademarks, (5) expenses related to the RSI acquisition, (6) inventory step-up amortization, (7) stock-based compensation expense, and (8) gain/loss on asset disposal. We believe Adjusted EBITDA, when presented in conjunction with comparable GAAP measures, is useful for investors because management uses Adjusted EBITDA in evaluating the performance of our business.

We define Adjusted EBITDA margin as Adjusted EBITDA as a percentage of net sales.

### Free cash flow

To better understand trends in our business, we believe that it is helpful to subtract amounts for capital expenditures consisting of cash payments for property, plant and equipment and cash payments for investments in displays from cash flows from continuing operations which is how we define free cash flow. Management believes this measure gives investors an additional perspective on cash flow from operating activities in excess of amounts required for reinvestment. It also provides a measure of our ability to repay our debt obligations.

### Net sales excluding RSI sales

To better understand and compare the performance of our core American Woodmark business by our management and our investors, we believe it is helpful to subtract the amount of sales from our recently acquired and now wholly-owned subsidiary, RSI Home Products, Inc., from our net sales and report this amount with our quarterly earnings announcements. We may discontinue using this non-GAAP financial measure at a later juncture once RSI has become fully integrated into our Company and the quarter to quarter comparisons of our core business are no longer as helpful to compare performance.

## Summary

Management believes all of these non-GAAP financial measures provide an additional means of analyzing the current period's results against the corresponding prior period's results. However, these non-GAAP financial measures should be viewed in addition, and not as a substitute for, the Company's reported results prepared in accordance with GAAP. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP.

A reconciliation of these non-GAAP financial measures and the most directly comparable measures calculated and presented in accordance with GAAP are set forth on the following tables:
